

Virtual Pharmacist CHRIS

Introducing Virtual Pharmacist CHRIS – FREE for Choice Aged Care clients

What does CHRIS do?

- ✓ Chairs and coordinates Virtual MACs (VMACs).
- ✓ Case conferencing with the consumer and health team.
- ✓ 'Live' counselling, advice and support for the consumer.
- ✓ Nurse and care staff education and support.
- ✓ Fingertip access to health resources and quality data.
- ✓ GP/nurse clinical round participation.
- ✓ Facilitate quarterly chemical restraint reviews.
- ✓ Medication review services during lockdowns.

Why is CHRIS so important?

- ✓ Medication Management is the leading cause of consumer complaints, 'unmets' and sanctions.
- ✓ Evidence on quality outcomes supports 'embedding' pharmacists in aged care.
- ✓ In the COVID-19 era, CHRIS ensures the continuity of clinical pharmacist input to the health team.
- ✓ Research supports optimising MACs via the use of an independent chair i.e. QUM Pharmacist.

CHOICE AGED CARE

The Buddy Book ONLINE

A must-have online resource for providers employing medication competent carers

Scan the QR code for more information »

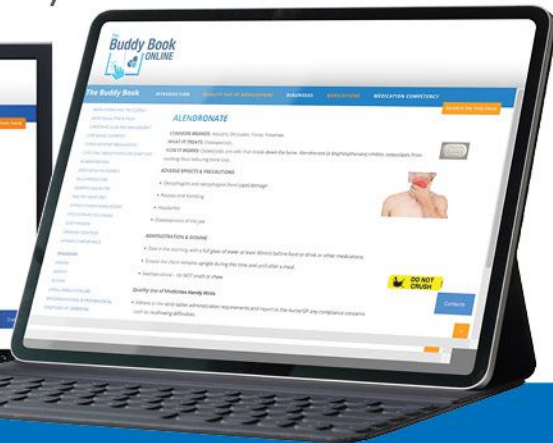

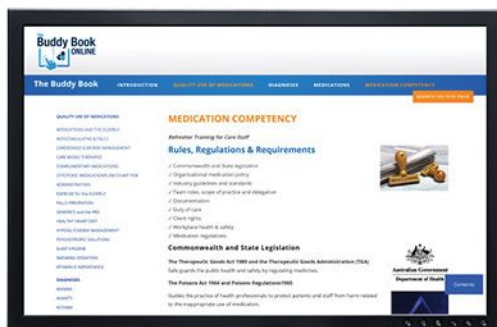

AUD \$49.95 / NZD \$54.95

Now
FREE to industry

Features:

- ✓ Designed specifically for the Australian home care and residential aged care sector.
- ✓ Targeted uniquely to medication competent carers' scope when assisting consumers with medications.
- ✓ Integrated into *Virtual Pharmacist CHRIS* and pending integration with industry care software.
- ✓ Diagnosis items (information and handy hints for associated client care).
- ✓ Medication items (drug info and handy hints to support carers' safe and effective input with medication duties).
- ✓ Medication refresher training material supporting carers to maintain their competency.

Why is this resource a must-have?

- ✓ Medication management is high-risk and *The Buddy* is the only resource that assists the role of medication carers.
- ✓ Supports compliance with the SQF (promotes safe and effective care and supports staff to perform their duties).
- ✓ Appropriately empowers care staff within the consumer's health team.

...and it's absolutely FREE and accessible at the point of care!
